Special Prices to Merchants

of

Seeds in Lithographed Packets and Packages.

We offer a fine line of vegetable and flower seeds in handsome colored lithographed packages and packets. These contain our best seeds and are so attractive that they sell themselves; if ordered in quantities based upon actual requirements so that none are carried over, a fine increasing trade will be the result. Order blanks naming varieties free on request.

	100 pkts.	1000 pkts.
Flower Seeds, assorted kinds in packets	\$0 65	\$4 75
Vegetable " " " "	0 75	5 50
Vegetable " " " oz. & $\frac{1}{4}$ pt. pkgs.	4 00	37 50

SPECIAL PRICE LIST

— OF —

RICHMOND SEEDS

THE FINEST THAT MONEY CAN PRODUCE.

“THE BEST IN THE LAND.”

THERE ARE THREE (3) QUALITIES OF SEED.

- FIRST.

Seeds that grow and mature products true to name are the best.
- SECOND.

Seeds of deferred growth, *i. e.*, that will not germinate, because they are too old or have been spoiled by improper care. This can be detected by testing.
- THIRD.

Seeds that germinate or grow good, but fail to prove true to name. This class causes more damage and disappointment than those that refuse to grow, as it takes a whole season to make the discovery.
- CAUTION.

Failure may result from the best or first quality seed by reason of neglect or sometimes from causes and conditions beyond human control. This we cannot insure against. However, good and profitable crops cannot be produced from third or poor quality seed.

FLOWER SEEDS.

- OUR OWN MIXTURES.

We make up from separate colors in proper proportions, and, therefore, they are vastly superior to the mixtures as supplied by growers who plant and grow in mixture, causing the free seeding kinds to predominate. Often mixtures are the dumping places for unsalable surpluses.
- PERENNIALS.

Varieties of flower seeds preceded by * are hardy perennials, which have become so popular of late and are easily grown from seed.
- CATALOGUE NUMBERS.

For the convenience of our customers we have prefixed a number to each variety of flower seeds, which can be used when ordering or referring to any kind.
- POSTAGE.

Seeds in packets, ounces and quarter-pounds we prepay to any Post Office. When ordered by the lb. add 8c. per lb. to cover postage.

2484—NASTURTIIUM DWARF OR TOM THUMB.

Our Own Mixture, lb., 60c.; $\frac{1}{2}$ lb., 20c.; oz., 10c.

LAWN GRASS SEED, CLOVENA MIXTURE.

Extra heavy, clean, tested seed, weighs 20 lbs. to the bushel, and 80 to 85% grows. Composed of the finest grasses for making lawns, putting greens, tennis courts, cricket grounds, renovating spots in old lawns, etc. Superior for exposed situations, producing, under favorable conditions, permanent, elastic and resistant velvet turf of emerald green in six to eight weeks. For first-class work, sow four bushels (80 lbs.) to the acre; and good results can be obtained with three bushels. Price, quart, 15 cents; peck, \$1.00; bushel, \$3.00.
